Comment on subject pending regulation.

I'm opposed to this ruling. I spent many hours learning the benefits and understanding options to protect my investments within my IRA. This has been very beneficial to minimize any losses and I want to continue with this opportunity to protect and grow my IRA. Please do not pass this regulation. This is our only protection and hedge against a great market pullback causing us to lose the majority of our moneys in our IRAs. Please do not pass this regulation into law.

Regards,
Joe Bono
